# MASON PRICE

## masonprice@brandeis.edu

#### EDUCATION

# **Brandeis University**

Waltham, MA

2025

- B.S., Mathematics and PhysicsMagna Cum Laude
  - Highest Honors in Physics

## **Publications**

- 1. Mason Price, Daichi Hayakawa, Thomas E. Videbæk, Rupam Saha, Botond Tyukodi, Michael F. Hagan, Seth Fraden, Gregory M. Grason, W. Benjamin Rogers. "From toroids to helical tubules: Kirigami-inspired programmable assembly of two-periodic curved crystals". arXiv, 2025.
- 2. Rupam Saha, Daichi Hayakawa, Thomas E. Videbaek, Mason Price, Wei-Shao Wei, Juanita Pombo, Daniel Duke, Gaurav Arya, Gregory M. Grason, W. Benjamin Rogers, Seth Fraden. "Modular programming of interaction and geometric specificity enables assembly of complex DNA origami nanostructures". arXiv, 2024.

#### Research Experience

### Rogers Lab — Brandeis University

2023 - 2025

Research Assistant

- Created a MATLAB-based geometry optimization algorithm to explore new structural configurations for triangular meshes used in a publication.
- Automated kinetic Monte Carlo (KMC) simulations using Python and Bash on a high-performance computing cluster (HPCC), enabling more than 10,000 simulations and efficient data analysis.
- Designed and implemented a Python-based interactive application for 3D visualization, enabling lab members to efficiently generate publication-quality figures.

#### Sciolla Lab — Brandeis University

2022

Research Assistant

 Performed data analysis of ATLAS Run-2 data, utilizing Python and ROOT to support high-energy physics research.

# RESEARCH INTERESTS

Scientific Computing, Applied Math in Soft Matter, Computational Geometry

#### SKILLS

Programming: Python, MATLAB, C/C++, Julia, Bash Software and tools: Mathematica, Git, IATEX, Fusion 360

## SELECTED HONORS

• Molly W. and Charles K. Schiff Award in Science, Brandeis University	2025
• Jerome A. Schiff Undergraduate Fellow, Brandeis University	2024
• Math Mentor of the Year Award, Brandeis University	2024
• Science Mathematics and Research for Transformation (SMART) Scholarship	2024-2025

П	$\Gamma_{\Delta}$	Т	K	c

Global Physics Summit — American Physical Society (APS)	2025
Talk and Poster	
• "Kirigami design for programmable self-assembly of complex curved surfaces"	2024
MIT Polymer Day — MIT  Poster	2024
• "Programmable assembly of toroids and helical tubules using DNA origami building by	locks"
New England Complex Fluids Workshop — Brandeis University	2024
Talk	
• "Self-assembly of toroids using DNA origami building blocks"	
SciFest — Brandeis University	2023
Poster • "Self-asembly of DNA origami structures: toroids and helical tubules"	
5 Deig-aschioly of D141 original structures, toroids and netted thouses	
Selected Courses
